

Dear Parents,
Greetings from San Academy!

"Mish Mash" is a combination of activities served together for children to enjoy and learn during classes. Club activities improve children's knowledge, skills, teamwork, creative thinking, and activate minds. They help our children build skills outside the classroom. The capabilities learnt in clubs include collaborating with other children, communicating while working together on common projects, learning to follow directions, and modeling leadership for both peers and adults.

Regards

SAN ACADEMY, KAMAKOTI NAGAR

SKILL CLUB

SKILL CLUB

A "Skill Club" is a great initiative aimed at enhancing various skills among students beyond what is typically covered in the regular academic curriculum.
