ENGLISH EVERYWHERE

The English Language is becoming more and more common in the world. As a result, increasingly people are dedicating time to study English as their second language. In fact, many countries include it in their school syllabus to teach children this language from a young age. However, the true value of this language is that it helps remove many barriers from our life. Whether it is to find a new job or travel the world. In other words, it helps to progress in life both on a personal and professional level.

PERSONALITY DEVELOPMENT

Personality Development should start early in a student's life which is a true reflection of their inner being. It can be defined as a set of traits that shape the inner and outer being in a person with organized pattern of behavior that makes a person distinctive. Character, behavior, attitude and environment are some of the qualities that shape an individual's persona. It helps gain confidence, self-esteem, positive impact on one's communication skills and the way one sees the world. Students should develop an outgoing and impressive personality that will enhance the quality of learning.

NO TO PLASTICS

Plastic bags are, though, the very convenient and easy choice of millions for its multipurpose usage, its pollution is creating havoc on the planet globally. Plastic bags had easily replaced paper bags for their durability and flexibility, posing a potential threat to the environment and life of human beings and also animals. Humans had not recognized the disastrous consequences that overuse of plastic bags could lead. It has become important to stop the use of plastic bags and save our environment from its disastrous consequences. We must take immediate responsibility for the wellness of our planet and all its living forms, and take a pledge to not to use plastic bags in any form or for any purpose. We must pledge to use other sustainable alternatives such as bags made of paper or other biodegradable materials.

PLANET NUTRITION

A healthy diet is essential for good health and nutrition.

It protects us against many chronic non communicable diseases, such as heart disease, diabetes and cancer. Eating a variety of foods and consuming less salt, sugars and saturated and industrially-produced trans-fats, are essential for healthy diet.

A healthy diet comprises a combination of different foods. These include:

Staples like cereals (wheat, barley, rye, maize or rice) or starchy tubers or roots (potato, yam, taro or cassava).

Legumes (lentils and beans).

Fruit and vegetables.

Foods from animal sources (meat, fish, eggs and milk).

Students must be aware of what they eat and the necessity of consuming nutritious food.

Planet Nutrition session focuses on the same.
