

SAN ACADEMY GROUP OF SCHOOLS

Circular regarding Online classes for June

Dear Parents

Warm wishes from San Academy.

With our strong will and determination, we are all with a positive hope to face this existing COVID 19 challenge.

Life should proceed and be adaptive to all the unprecedented crisis that emerges over the time in this world. Every member of San Family is looking for the day to reunite and hopefully praying for the situation that could come under control and comfort. Based on the regular follow up of government updates and decisions, we at San Academy make very crucial decisions to keep the education of all our Sannites in an active and lively mode.

Every member of San Family has been actively oriented towards the execution of the online classes both in academics and nonacademic areas. All creative and possible ways was smartly handled by our team members at San Academy with the able guidance of our Managing Director Ms.R. Archana.

We with a positive outlook accepted that this lock down is building new bonds and connections between parent, child and the school. It has shifted the focus from "Schooling only at School to School - home collaboration for learning"

This symbiotic relationship is expected to continue for the month of June as well.

The school will provide online classes for both Scholastic and co scholastic areas of education.

Please note that the following details would have been or will be reaching you,

- * Online June month portions
- * You tube Subject teaching links for all subjects including third language subjects.
- * Time table schedule for the webex online classes.
- * Class notes and worksheets for the subjects.

We expect your kind co operation to be extended further until the situations and possibilities turns out favourable and safe.

This decision to continue virtual instruction was made after careful consideration of the existing situation. Apart from this the management is also taking most important initiatives to make the school physical environment safe and infection free zone once the kids are in the possibility to join their school routine.

Hope and pray for such moment in life.

With all confidence we seek your support which you have been rendering all these years.

Thanks

Take care. Stay safe.

Regards

San Academy
